# Noorullah Rezaie

## MERN Stack Developer | Full-Stack Web Developer

Kabul, Afghanistan

+93 77 43 66 292

[rezaie2.noorullah@gmail.com](mailto:rezaie2.noorullah@gmail.com)

<https://github.com/Noor-Rezaie>

### SKILLS

MERN Stack Developer skilled in building scalable web applications using MongoDB, Express.js, React, and Node.js. Proficient in frontend frameworks like Tailwind CSS and Bootstrap, with strong command over JavaScript (ES6+), responsive design, and RESTful API development. Experienced in Git-based workflows, state management with Redux, and modern tools like React Query and Vite.

### EXPERIENCE

#### TeamSync, Remote – Backend Developer

JAN 2025 – PRESENT

- Building scalable RESTful APIs using Node.js and Express.js.
- Implemented status updates, filtering, and secure data handling using Node.js and MongoDB.

#### MERN E-Commerce – Full-Stack Developer

SEP 2024 – DEC 2024

- Created a complete e-commerce platform with product listings, cart, order system, and user accounts.
- Built secure RESTful APIs and handled MongoDB data modeling and JWT-based auth.

#### Natours-Learn API – Backend Developer

FEB 2023 – APR 2023

- Developed a full-featured RESTful API using Node.js, Express, and MongoDB.
- Implemented robust authentication and authorization with JWT and role-based access.

---
